Community Planning Committee (CPC) Report – Joui Hessel, Chair

The CPC held its orientation with four new community members present.

The first meeting was held on September 21st with many in attendance. After an experiential activity to introduce each member of the CPC and our partner agency's missions, our discussion was centered on the new ALICE (Asset Limited, Income Constrained, Employed) report for the state of Connecticut. In addition to discussing the various issues around ALICE, we also began a discussion as to what we as G UW and our community partner agencies can do to reduce the number of people within the ALICE bracket in Greenwich. (More jobs with livable wages - how do we do this? Do we create connections with business leaders?)

Respectfully Submitted,
Joui M. Hessel
